## Special County of Grey Joint All Councils Agenda

March 21, 2025

#### 10:00 a.m.

#### **Electronic Meeting**

This Special County of Grey Joint All Councils meeting will be held jointly with the County of Grey and the municipalities of the Town of The Blue Mountains, City of Owen Sound, Township of Georgian Bluffs, Municipality of Meaford, Township of Chatsworth, Municipality of Grey Highlands, Town of Hanover, Municipality of West Grey, and Township of Southgate.

The meeting can be viewed on the Grey County website at www.grey.ca/livestream. If you experience problems accessing the live stream, please email clerks@grey.ca for assistance.

- 6. Adoption of Agenda and Procedures

THAT the Special Grey County Joint All Council meeting adopts the content of the agenda as presented and Grey County Procedural By-law 5134-22 to govern the procedure of its March 21, 2025 joint meeting of the County of Grey and the municipalities of the Town of The Blue Mountains, City of Owen Sound, Township of Georgian Bluffs, Municipality of Meaford, Township of Chatsworth, Municipality of Grey Highlands, Town of Hanover, Municipality of West Grey, and the Township of Southgate; and

THAT quorum shall be determined by 50% plus one of all elected officials across Grey County and that votes taken be determined by a simple majority vote.

- 7. Adoption of Minutes
  - 7.a Special Grey County Joint All Council Meeting August 8, 2024

That the Special Grey County Joint All Council Meeting minutes dated August 8, 2024, be approved as presented.

#### 8. Reports

8.a PDR-SJM-19-25 Hybrid Planning Services Model Update

That report PDR-SJM-19-25 be received; and That correspondence be sent to each member municipality in Grey County, requesting any interested municipality to indicate its support in-principle for a hybrid planning service delivery model by no later than May 9, 2025.

9. By-laws

31

That By-law 2025-01, being a by-law to confirm all actions and proceedings of the Grey County Joint All Council meeting held March 21, 2025 be enacted and passed this 21st day of March, 2025.

10. Adjournment

# Minutes Special County of Grey Joint All Councils

August 8, 2024

### Call to Order

The Special County of Grey Joint All Council meeting was held electronically on the above date at 8:41 a.m. The Warden called the meeting to order and assumed the Chair.

## O Canada

The Warden invited members to participate in O Canada.

## Roll Call

The Warden asked each municipal Clerk to verify the elected members present.

Patty Sinnamon, Clerk and CAO for the Township of Chatsworth, confirmed that all locally elected members were present.

Carly Craig, Clerk for the Township of Georgian Bluffs, confirmed that all locally elected members were present, except Councillor Ryan Thompson. The following staff from Georgian Bluffs were also in attendance: Niall Lobley, CAO; Brittany Drury, Deputy CAO; and Crystal Gunn, Human Resources Manager.

Amanda Van Alstine, Clerk for the Municipality of Grey Highlands, confirmed that all locally elected members were present. The following staff from Grey Highlands were also in attendance: Karen Govan, CAO.

Vicki McDonald, Clerk for the Town of Hanover, confirmed that all locally elected members were present. The following staff from Hanover were also in attendance: Sherri Walden, CAO, and Melissa Hilgendorff, Human Resources Manager.

Alex Croche, Clerk for the Municipality of Meaford, confirmed that all locally elected members were present, except Councillor Harley Greenfield. The following staff from Meaford were also in attendance: Kymm Buckham, CAO, and Sarah Mahon, Director of Human Resources.

Briana Bloomfield, Clerk for the City of Owen Sound, confirmed that all locally elected members were present, except for Mayor Ian Boddy and Councillor Melanie Middlebro'. The following staff from Owen Sound were also in attendance: Tim Simmonds, City Manager, and Janet Ashfield, Human Resources Manager.

Lindsey Green, Clerk for the Township of Southgate, confirmed that all locally elected members were present. The following staff from Southgate were also in attendance: Dina Lundy, CAO, and Kayla Best, Human Resources Manager.

Corrina Giles, Clerk for the Town of The Blue Mountains, confirmed that all locally elected members were present, except for Councillor Alex Maxwell. The following staff from the Town of The Blue Mountains were also in attendance: Shawn Everitt, CAO, and Sarah Traynor, Manager of Human Resources.

Jamie Eckenswiller, Clerk for the Municipality of West Grey, confirmed that all locally elected members were present. The following staff from West Grey were also in attendance: Michele Harris, CAO.

The following staff from Grey County were also in attendance: Kim Wingrove, CAO; Randy Scherzer, Deputy CAO; Tara Warder, Clerk; Scott Taylor, Director of Planning; Jenn Moreau, Director of Human Resources; Olivia Yale, Communications Officer; and Sarah Goldrup, Deputy Clerk.

#### Land Acknowledgement

The Warden read the land acknowledgement.

### **Declaration of Interest**

There were no declarations of interest.

#### **Adoption of the Agenda and Procedures**

The Warden stated that Grey County would maintain all records of this meeting and that quorum shall be determined by 50% plus one of all elected officials across Grey County. The Warden noted that any votes taken would be determined by a simple majority.

JC01-24

Moved by: Councillor Eccles Seconded by: Councillor Dobreen

> That the Special Grey County Joint All Council meeting adopts the content of the agenda as presented and Grey County Procedural Bylaw 5134-22 to govern the procedure of its August 8, 2024, joint meeting of the County of Grey and the municipalities of the Town of The Blue Mountains, City of Owen Sound, Township of Georgian Bluffs, Municipality of Meaford, Township of Chatsworth, Municipality of Grey Highlands, Town of Hanover, Municipality of West Grey, and Township of Southgate.

Carried

#### **Closed Meeting Matters**

JC02-24 Moved by: Councillor Dickert Seconded by: Councillor Carleton

That the Special County of Grey Joint All Councils meeting does now go into closed session pursuant to Section 239 (2) of the Municipal Act, 2001, as amended, to discuss:

i. Labour relations or employee negotiations and advice that is subject to solicitor-client privilege (Shared Service Delivery & Service Efficiencies).

Carried

The Joint Council proceeded into closed session at 8:48 a.m.

The Joint Council returned to open session at 9:58 a.m.

#### **Reconvene in Open Session and Report**

The Warden confirmed that the only items discussed were those cited in the motion to move in camera, and that direction was given to staff.

### **By-laws**

JC03-24 Moved by: Councillor Eccles Seconded by: Councillor Allwood

That By-law 2024-01, being a by-law to confirm all actions and proceedings of the Grey County Joint All Council meeting held August 8, 2024, be enacted and passed this 8th day of August, 2024.

Carried

### Adjournment

On motion by Councillors Monica Singh-Soares and Tom Hutchinson, the Special County of Grey Joint All Council meeting adjourned at 10:00 a.m.

# **Committee Report**

То:	Warden Matrosovs, Chair and Elected Officials
Committee Date:	March 21, 2025
Subject / Report No:	PDR-SJM-19-25
Title:	Hybrid Planning Services Model Update
Prepared by:	Randy Scherzer and Scott Taylor
Reviewed by:	Kim Wingrove
Lower Tier(s) Affected:	Member municipalities in Grey County

## Recommendation

- 1. That report PDR-SJM-19-25 be received; and
- 2. That correspondence be sent to each member municipality in Grey County, requesting any interested municipality to indicate its support in-principle for a hybrid planning service delivery model by no later than May 9, 2025.

## **Executive Summary**

In 2024, Grey County began a project to improve the planning process and recommended efficiencies at the County level, with suggestions for municipal improvements as well. Several process improvements have since been made at both the County and municipal levels.

As part of these discussions, staff were also directed to research a centralized planning services delivery model. A few closed and open session staff reports were presented in the summer and fall of 2024 on a centralized model. Based on the feedback received, staff are now investigating a hybrid service delivery model. Under this new model, the County could provide planning services to some municipalities for both County and municipal planning matters, while other municipalities would remain status quo with a two-tier planning service delivery model.

This report provides a summary of, and responses to, the municipal feedback received on the centralized service delivery model. The report also outlines how a hybrid model could function, and some next steps for investigation of a hybrid model.

Staff are recommending that this report be received and that any interested municipalities provide in-principle support resolutions for investigating the hybrid model further. For those municipalities that provide no response, County staff will assume that they do not wish to participate in a hybrid service delivery model. Municipalities also have the option to pass a resolution opting out of further investigations of a hybrid service delivery model.

## **Background and Discussion**

In February 2024, County staff presented report PDR-CW-03-24 which explored potential planning efficiencies at both the County and municipal levels. Since then, a number of those planning efficiencies have been implemented at both levels. Coming out of that efficiency's discussion, through some subsequent closed session staff reports (in June and August of 2024), County staff were directed to investigate options for a centralized planning services delivery model. Reports PDR-CW-52-24 and PDR-CW-63-24 provided; updates to Council, requested comments from municipalities, and direction to continue investigating the matter. Through report PDR-CW-63-24, County Council supported the following recommendation:

- 1. "That report PRD-CW-63-24 be received; and
- 2. That staff be directed to continue to investigate the planning efficiencies staffing model based on approximately two thirds of the member municipalities participating; and
- 3. That staff be directed to arrange a joint, open session council meeting with member municipalities to provide a summary of the comments and questions received regarding the potential centralized planning service delivery model and to identify potential next steps and options."

Links to the above-noted open session staff reports can be found in the Attachments section of this report.

Since the summer 2024 discussions, County staff have also had discussions with Ministry of Municipal Affairs and Housing (MMAH) staff. MMAH staff offered some verbal comments and perspectives on planning models they see across the province. MMAH staff did not offer formal written comments and noted that the Ministry typically does not get involved in operational service delivery reviews. If there was a request to the Ministry for increased delegation of approval authority responsibility, then the Ministry may take a more 'hands on' role in providing feedback.

Staff also invited feedback from the public and the development industry, through an engagement page on the County's website found <u>here</u>. Staff received some written and verbal feedback on the centralized planning service delivery model. Some comments were received in writing, some of which were supportive of investigating the model further. Other comments, including the Blue Mountain Ratepayers Association noted they were not in support of a centralized planning model. One developer also noted that they were in support of the model for municipalities with smaller planning departments, but not in favour for municipalities with larger existing staff complements. Some developers offered verbal comments to suggest that the model was worthy of investigating further, however they were reticent to put comments in writing for fear of alienating municipal staff and councils who are currently providing their planning approvals.

In response to report PDR-CW-52-24 municipalities shared their comments with the County. A link to a summary of those comments, along with a County staff response has been included as Appendix 1 to this report. These comments were summarized at a very high-level in report PDR-CW-63-24, but the Municipal Comment Response Table in Appendix 1 provides more detail on the comments received.

Municipalities were not asked to declare whether they would like to be a part of the centralized service delivery or not. However, Town of The Blue Mountains Council passed the following resolution on the matter.

"THAT Council receive Staff Report PDS.24.134, entitled "Grey County Centralized Planning Services Model – Staff Feedback";

AND THAT in consideration of Staff Report CS-24-073, while respecting comments on the County of Grey's proposed centralized planning service model, Council direct staff to provide a copy of this report in response to the County's request for comments and the following motion on the matter, to Grey County Council and Planning Staff, the County Clerk, the County's CAO and Deputy CAO;

AND THAT Council requests that the County develop a centralized planning service model that excludes The Blue Mountains;

AND THAT Council requests that the County consider a hybrid, phased approach to this model that would start with lower tiers that would benefit from the model, especially for municipalities with sole practitioner planners or consultants, with opportunity for monitoring, feedback and evaluation;

AND THAT Council requests that the County, together with The Blue Mountains, consult with the Province on the proposed centralized planning services model prior to implementation and share all comments and/or feedback received through this consultation with member municipalities at the level of their respective council."

Based on the above motion from the Town, as well as the direction received through report PDR-CW-63-24, a centralized service delivery model which includes the County and all nine member municipalities is no longer being investigated. At the direction of County Council, staff have pivoted to investigating a hybrid service delivery model, which would see the County potentially provide planning services to some, but not all, member municipalities. The remainder of this staff report will focus on a hybrid service delivery model.

#### Additional Municipal Staff Feedback

As noted above, municipalities provided comments through staff reports and council resolutions. However, in early 2025 County staff had further discussions with municipal planning staff, as well as the municipal CAOs.

From a municipal planning staff perspective, there is not a consensus on either a centralized or hybrid service delivery model. While some municipal staff support further investigating a hybrid service delivery model, others expressed concerns with doing so. A summary of the concerns expressed is as follows:

- Will the new model result in more timely planning decision-making,
- What are the actual efficiencies to be gained through a new model,
- What will happen to the 'planning adjacent services' provided by municipal planners under the new model, will remaining municipal staff be left to fill those roles,

- Will the new model create inefficiencies and broken relationships between planners and other supporting municipal staff such as operations, engineering, parks and recreation, etc.
- Will the new model be more cost effective,
- Will municipalities be left paying more, to support other municipal functions that may no longer be handled by planners in the centralized model,
- Will there be adequate in-person service delivery hours in each municipal office,
- Where will municipal staff joining the County team be working from, and will there still be the opportunity to work remotely,
- What happens to municipal staff who choose not to join the new model,
- Why is this process being 'rushed' and why the need for a decision until all information is known,
- Municipal staff haven't been adequately consulted on the new model,
- What will happen with existing processes such as development review or presubmission consultation processes,
- Software, IT, and records management concerns,
- Will the new model have adequate planning policy staffing levels,
- Should development and planning policy be integrated,
- What will the staffing levels be, and when will there be an organizational chart,
- Will the new model have adequate administrative support,
- What happens with agreements and legal needs,
- Municipalities need input on hiring and performance review of County staff serving municipal planning functions,
- A hybrid model could put planners in a conflict scenario where two municipalities disagree on a planning matter,
- Still too many unknown details on how a hybrid model would work,
- What does implementation look like, will it be phased in,
- Will there be an opportunity to exit the hybrid model, should a municipality try it, and determine it doesn't work for them, and
- It may work for some municipalities but wouldn't be a good fit for my specific municipality.

There have also been some supportive comments from municipal staff who welcomed the opportunity to be a part of the model and looked forward to career growth opportunities.

From a municipal CAOs perspective, there were mixed opinions, including but not limited to the following:

- That they would like to see a new model implemented as soon as possible based on current staffing levels or pending staffing and consulting changes,
- At a CAO-level they see merit, but their planners had concerns about the new model,
- Happy with current planning service levels, and see little need for change at the moment,
- If my municipality 'opts out' now, could we still join the model at a future date, and
- Council is supportive, not supportive, or undecided at this stage.

#### How would a Hybrid Planning Service Delivery Model Work?

There is precedent for hybrid planning service delivery models in other two-tier municipal governments. Locally, Wellington County uses such a model whereby some municipalities have planners at the County and municipal level, whereas for other municipalities the County provides the planning services, and there are no municipal planners.

This model, if pursued further, could work as follows.

- 1. Municipalities would be given the option of receiving planning services from the County, or continuing with the status quo of planning services at both levels.
- 2. For those municipalities that do choose to receive planning services from the County (hereafter referred to as 'participating municipalities'), they would enter into a memorandum of understanding (MOU) with the County which would spell out the terms of service delivery.
- 3. For each of the participating municipalities there would be in-person planning service office hours, based on what was negotiated in the MOU and the need in any given municipality. In some instances, this may necessitate full-time in office service delivery (i.e., 5-days a week), versus other municipalities may only need one or two days a week.
- 4. Existing planners at a participating municipality would become County planners, who would deliver County and municipal planning services in those participating municipalities.
- 5. Planners would be assigned to a given municipality such that there would be some consistency in service delivery, and for relationships to be forged with municipal staff and municipal council. In some cases, this may align with the municipality they're already working for (pre-hybrid model). In a hybrid model, one planner may work across multiple municipalities, or where workload demands, or staffing changes occur, the hybrid model would allow other planners to 'fill in' as needed. For example, if planner 'A' was serving municipality 'Z', but that municipality got very busy, then the model would allow planner 'B' to be pulled in from elsewhere to also assist municipality 'Z'. Conversely if municipality 'Z' was less busy, then planner 'A' may be called upon to help out elsewhere. These same changing workload demands could apply both to development and policy planning needs.
- 6. For the participating municipalities, no approval authorities would change between the County and municipalities, i.e., municipalities would still approve zoning amendments, minor variances, site plans, etc. For the status quo municipalities, there would also be no change in approval authority jurisdiction.
- 7. Planning applications in participating municipalities would be filed directly with the County, and a County fee would be required for said applications. In order to do so, the County would need to update its Fees and Services by-law, and participating municipalities may need to reciprocally amend their by-laws accordingly. Municipalities would also have the option of charging a municipal fee, to recoup associated municipal costs.
- 8. County staff would handle the pre-submission consultation, inquiries, and application processing for planning applications in participating municipalities. County staff would prepare and present reports to municipal councils and committees, who would still render those decisions.

- For status quo municipalities, the County would still; provide comments on municipal applications, provide planning ecology services, and render decisions\* on subdivisions, condominiums, part lot control, official plans, and official plan amendments.
- 10. Further details on financials will need to be addressed once it is determined which municipalities will be participating municipalities, versus which will remain status quo. County application fees and general levy would continue to fund the status quo municipalities, while participating municipalities would be funded through; (a) new County application fees on municipal applications, and (b) some fee for service municipal levy contributions. For item (b) this may be similar to current services some municipalities already purchase from the County, such as geographic information systems (GIS) services.
- 11. Staff working under the hybrid service model would work in municipal offices, the County administration building, and through a hybrid manner. Staff joining the County team would be given similar salary and vacation entitlements, as well as a comparable benefit package. The County Planning department is a part of the County's non-union employee group.
- 12. Depending on the number of municipalities who choose to participate in the hybrid model, some staffing positions would be appointed, whereas other staffing roles may require an internal competition i.e., current municipal and County employees would be invited to apply for certain positions. As per earlier discussions, those participating municipalities would retain any existing directors, administrative assistants, and GIS / planning technicians, unless otherwise spelled out differently in the MOUs. Planners at the junior, intermediate, senior, and working planning manager levels would join the County team for those participating municipalities.

\*Approvals differ in the City of Owen Sound who is already the delegated approval authority on some of these planning matters.

#### Next Steps and Further Information Required

Following the joint council meeting on March 21, municipalities will be asked to indicate to the County whether they want to give 'in-principle support' to being a part of a hybrid service model, or whether they wish to remain status quo. County staff are asking that such in-principle support resolutions be received by end of day on May 9, 2025. Municipalities will not be committing to participation through such in-principle support and will be given the opportunity later in the process to fully 'opt in' or 'opt out'. County staff need to get an indication of who may be a part of the model or not, for the purpose of determining staffing levels, financial implications, further consultation needs, etc.

For those municipalities that provide no response, County staff will assume that they do not wish to participate in a hybrid service delivery model. Municipalities also have the option of opting out of further investigations of a hybrid service delivery model.

Beyond the in-principle support resolutions, staff have identified the following next steps, should there be a desire to investigate a hybrid model further.

- 1. Set up one-on-one discussions with potentially participating municipalities with both the municipal planner(s), relevant department heads (where applicable), and CAO in attendance to discuss;
  - a. Desired service levels under a hybrid model,
  - b. Current 'planning adjacent services' being offered by municipal planners,
  - c. Internal municipal processes, such as development review committees,
  - d. Council / Committee structures and relationships,
  - e. Delegated staff approvals,
  - f. Existing municipal planning budgets, software, etc.,
  - g. Understand current contracted services such as municipal peer reviewers on retainer,
  - h. Desired timing for implementation,
  - i. Any major planning projects in the coming years (e.g., official plan or zoning bylaw reviews, special studies/projects, etc.),
  - j. Transition considerations as it relates to existing files, appeals, and special projects, and
  - k. Any concerns or questions that pertain to a hybrid model.
- 2. Draft MOU templates for consideration by County and municipal councils. Staff believe that large portions of the MOUs will remain the same from municipality-to-municipality. However, there will be some service level details that will vary between municipalities, e.g., the number of in-person office hours per municipality based on need.
- 3. County staff would meet with other counties that offer hybrid service delivery models to learn from their current models, and collect examples of MOUs, where counties are able to share.
- 4. Propose an organizational chart once it's known which municipalities are participating.
- 5. Within the MOUs, there would need to be some transition provision considerations, such as how existing applications in process would be handled, existing appeals to the Ontario Land Tribunal, as well as software and records management considerations.
- 6. Work with County/municipal Finance, IT, Human Resources, Legal Services, and Clerks staff on additional details to inform Council's decision making on the new model.
- 7. Update the County's Fees and Services By-law. This may be done prior to any implementation, or could be done early into the implementation of a hybrid model.
- 8. Determine appropriate implementation dates, and whether that would be an 'all-at-once' implementation for participating municipalities, or a phased implementation. For those municipal CAOs in favour of the new model, many suggested implementation in early 2026, but an exact timeline has not yet been established.

Should there be (a) no desire to further investigate a hybrid service delivery model, or (b) limited interest in investigating such a model, then this whole process may 'end' following either the joint council meeting on March 21, 2025, or following the receipt of the in-principle support resolutions.

The original forecasted planning efficiencies were based on all nine member municipalities and the County working together. Should there be a majority of municipalities that want to pursue a hybrid model, then staff still see a number of efficiencies to be gained from the model. However, should there only be a small subset of municipalities wishing to pursue a hybrid model, then it may not be worth investigating further.

Should there be no further investigations of a hybrid model, then staff at both the County and municipal levels can continue to focus on planning efficiencies and improvements to existing processes as identified in County staff report PDR-CW-03-24.

## Legal Considerations

None at this time.

#### **Financial and Resource Implications**

Any financial and resource implications will be explored as part of the future staff report. Financial and Resource Implications are not anticipated in the 2025 budget, should there be direction to move forward with further investigations into a hybrid model. However, there are many factors that will feed into the total cost and resourcing of the model which are not yet known. Should the model move forward with in principle support from some municipalities, staff anticipate detailed discussions with those municipalities along with the detailed costing. The MOUs and costing investigations will also require discussions on service levels and what services are currently offered by each municipality, including the requested service levels going forward under a potential hybrid model.

Should implementation be considered in 2026, there may be the need for an interim funding model or transfer payments during the initial phases of a hybrid model. While this has not been determined yet, this could include asking participating municipalities to allocate their existing planning services budget to the model (or portion thereof), or to allocate existing planning revenues to the model, until such time as the County's Fees and Services By-law is updated. There may be costs required in the 2026 budget to update the Fees and Services By-law.

IT, HR, legal/agreement review requirements, as well as other staffing considerations will also need to be considered via those detailed discussions, the MOUs, and future staff reports on this matter.

## **Relevant Consultation**

Internal: CAO, Clerks, Finance, Human Resources, Information Technology, Legal Services, and Planning

External: Member municipalities in Grey County, Ministry of Municipal Affairs and Housing, external counties, the development industry, and the public.

Appendix 1: Municipal Comment Response Table\*

PDR-CW-63-24 Centralized Planning Service Delivery Model Update

PDR-CW-52-24 Investigating a Model for Planning Efficiencies and Shared Service Delivery

<u>PDR-CW-03-24 Planning Efficiencies Report</u> \*Note: there are many references to a centralized service delivery model in Appendix 1, including in the County staff responses. These references

are in response to the original centralized service delivery model concept. This concept has since evolved into a potential hybrid service delivery model concept. For the sake of responding to the original municipal comments, there are still references to the centralized model, but such responses shall now be read with the understanding that a hybrid model is now what's being considered.

#### Appendix 1: Municipal Comment Response Table\*

Comment Received	Originating Municipality	County S
1.0 Impact on Oth	ner Municipal Depart	ments
<b>1.1 Input from other departments:</b> Staff are unable to provide full comments on each of the topics requested. Information may be required from other divisions and departments, such as Records Management, IT, and Human Resources	Owen Sound	This can be investigated further as pa
1.2 GIS: The hours of GIS staff have not been considered	Owen Sound	This can be explored further as part of
<b>1.3 Collaboration with other departments:</b> The potential impact on other municipal departments and staff is an important consideration. A vast majority of development applications require significant coordination with Engineering Services and Public Works and Building Divisions. How will the proposed model ensure the integrated approach will continue to provide integration and does not result in a disjointed approach with potentially significant frustration for developers?	<ul> <li>Owen Sound</li> <li>Georgian Bluffs</li> <li>Southgate</li> <li>Hanover</li> <li>Meaford</li> </ul>	The planning centralized model will n relationships and processes with othe new processes. It is proposed that p coordination, would be available to m The proposal would be to have at lea municipal office during the regular off memorandum of understanding (MOI
2.0 Service Delive	ery and Customer Se	ervice
<b>2.1 Planning Ecologists:</b> The nine-member municipalities within Grey currently share the two (2) Planning Ecologists. It merits note that these planners were intended to be funded through application revenues and not be supported by the tax levy. Assigning the ecologists to proposed hubs further reduces the level of service that would be provided with potential negative impacts on application timelines.	Owen Sound	The level of existing service provided unchanged with this new model.
<b>2.2 Policy Planning Complements:</b> The County model dedicates less than 0.5 FTE of staff time to policy planning. The County report acknowledges that consultants may be required to support this policy work. This will further prevent the municipality from directly steering policy development to ensure that it is consistent with municipal long-term strategic visions. On the Policy Planning side, the team is undersized to cope with major Planning Act changes (typically there have been 3 to 4 per year).	<ul> <li>Owen Sound</li> <li>Southgate</li> </ul>	The proposed Planning Centralized M resiliency to be able to respond to incomunicipality as well as to allocate responder to be policy planners are not proposed to be their time and resources will be allocate as they arise. For example, if the Citrupdate scheduled for a specific year, workplan for the policy planners and accordingly. Depending on the volum in any given year, there may need to work on the various projects (e.g. shift assist with policy projects/initiatives iff required to support policy projects/initi municipalities or the County from using projects, where capacity or expertise

4.0 Development Application Proc	ess and Reporting t	Further to the response in 2.9 above, provide flexibility, such that staff can a development vs. policy pressures. The the model to adapt to changing condit
4.0 Development Approvals: This model, as currently proposed, provides little information on site plan control and heritage planning. Within the Bruce County Planning Model, site plan approval remains with the lower-tier municipalities. Given that the proposed County model is based on the Bruce County model, the City would likely need to have staff working locally to undertake site plan approval. This would be a cost outside the County model. How will the County model ensure that municipal best interests are respected in Site Plan approvals and that they are integrated with municipal capital planning and other municipal processes? How will the structure integrate financial and other local impacts on an application type that is delegated to staff? Is it anticipated that planning staff will be required in lower tiers to support this work?	Owen Sound	<ul> <li>The centralized model, or a hybrid model other counties, e.g., Bruce, Wellington needs of Grey County and the particip response to 2.5 above, approval author new model. Site plan control would count of the model. Site plan control would count of the appropriate staff person of CAO, etc. As part of the MOU, the Count recreation, etc. It may be that there is applications, but that there is also a model the exact financial model of a centralized will not be known until it is determined and which may not.</li> <li>With respect to other roles filled by model to be assessed as part of the MOU with each potentially participating murroffers which service, beyond <i>Planning</i> to official plans and zoning by-laws.</li> </ul>
<b>4.2 Application Timelines:</b> Timelines associated with processing development applications appear longer with the County than with the city.	Owen Sound	The County and all nine member mun levels, and council-reporting requirem exact response timing and application the expectation is that if the new mode of customer service, if not improved, t may also fluctuate, in times of peak de service model will be designed to resp being able to reallocate staff resource
<b>4.3 Policy and Development Planning:</b> The County model proposes separating policy planning from development planning, but there is a real benefit to having those who undertake development planning also participate in policy development. Knowing how a policy will be implemented and will	Owen Sound	The County is open to feedback on ho planning. If they are separated division closely connected with regular commu open to exploring how other municipal

e, the new model is also being proposed to adapt to changes in workload, or changes in here will need to be some flexibility built into ditions.

nodel, could borrow from the approaches in on, Huron, etc. but can be tailored to meet the cipating member municipalities. As per the thority is not proposed to change through the continue to be approved at the municipal level. y given municipality, each municipality can n to approve site plans i.e., director, clerk, County and member municipalities can discuss ed planning team, and the necessary staff ch as operations, engineering, parks & is a County application fee for *Planning Act* municipal review fee to cover off some of ngineering that remain at the municipal level. alized or hybrid model is not yet known, and ed which municipalities may be participating

<b>5.20 Loss of Employees:</b> If planners decide they no longer wish to remain if the model is pursued, how will this be addressed?	<ul><li>Southgate</li><li>Hanover</li></ul>	The planner would receive a severand Standards Act.
<b>5.21 Staff Training:</b> How will planners be trained in work that they currently have no experience to deliver?	Southgate	A professional development and train are developed in conjunction with staf also allow planners to learn from one towards future promotions.
<b>5.22</b> Professional Development: This model has the potential to increase professional development opportunities. Some member municipalities have isolated planners with fewer mentorship opportunities, less training budget, etc. The model may provide greater knowledge of other municipalities and the ability to grow within the County. However, the opposite may occur and some member municipalities may lose opportunities currently enjoyed by staff for external training or events.	Meaford	Each County department has a fulson departments need for maintaining pro planning. There are several committee are not planning specific however may model. Annual development plans will department team members.
<b>5.23 Termination Pay:</b> Will termination pay need to be provided to planning staff when they shift from municipality to the County? How will we mitigate perceived constructive dismissal?	Hanover	The focus of the centralized planning and benefits for all members who will perception of constructive dismissal.
<b>5.24 Approved Leaves:</b> What if there is a current municipal planning staff member on an approved leave when the transition to a centralized model occurs?	Hanover	Approved ESA leaves will be maintain insurance/income replacement. Positi leave concludes. More research will n long-term disability. HR staff will const municipality and determine the best p
<b>5.25 Errors and Legal Implications:</b> What is the anticipated process if a minor or major error occurs by County staff doing planning work for the Municipality? How will legal liability and resolution of any claims or damages be addressed? How will the County make efforts to mitigate the impact to the relationship or reputation of the Municipality?	Southgate	The County has an indemnity policy for mistake in the conduct of their work do work as a team to mitigate any reputa members also carry professional liabil memberships.
6.0 Munici	pal Record Keeping	9
<b>6.1 Physical Records:</b> If implemented, comments from the Municipal Clerks Division regarding file sharing/records management should be obtained. How will physical records be managed?	<ul><li>Owen Sound</li><li>Southgate</li></ul>	Acknowledged – see also the response discussions between IT and clerks will included in the MOUs in this regard. Of other centralized or hybrid counties ha
<b>6.2 Emails:</b> How will emails be managed? Some municipalities have policies on record keeping of corporate email as they pertain to municipal issues.	Southgate	Acknowledged – see also the response hybrid or centralized model would be by the County's records retention polic However, there may be overlap with n retention on a County-staff authored n Municipal/County freedom of informat

7.0 Timelines or T	ransitional Conside	
<b>7.1 Hybrid Model:</b> There may be some merit in re-establishing a previous County model in which the County provided in-house planning services for some lower-tier municipalities. This hybrid model may be beneficial for municipalities that currently rely on sole practitioner planners or planning consultants and which do not have Engineering divisions because they do not have urban settlement areas serviced by municipal water, sewer and stormwater management systems. A hybrid model that begins with a few municipalities and is phased in, would allow the model to be scaled up over time and reviewed to determine financial impact and other success measurables.	Owen Sound	County staff received direction on Nov <u>CW-63-24</u> to continue to investigate s one of the models being investigated. hybrid model as part of the joint count
<b>7.2 Level of Support Needed:</b> Is there a critical mass of support of lower-tier municipalities to realize the efficiencies of a centralized model? If so, how many must participate to realize these efficiencies?	Georgian Bluffs	See response to 7.1 above. At this state threshold for what that critical mass of further discussion on this as part of the
<b>7.3 Phase-in Potential:</b> Would the change be considered permanent, or would there be potential for a pilot or phased-in approach? What would the risks and benefits of this be?	Georgian Bluffs	The County is open to implementation either phasing or a pilot approach. If the to be a minimum trial period (e.g., 3-y issues as well as ascertaining succes permanent employment for any membrand Grey County is important to ensure the dismissal.
<b>7.4 Process Mapping:</b> Will the County be doing a process mapping exercise for various planning applications? If yes, should the mapping exercise show that various municipal processes differ? Will the County want a standardized model or provide a model that is municipality focused? Who will complete the processing mapping?	<ul><li>Southgate</li><li>Hanover</li></ul>	County staff can complete some proc staff recognize that each municipality standardization of processes in order and aid in implementation. The future processes.
<b>7.4 Opting-Out:</b> What options will be available should a municipality desire to opt out of this agreement? Will there be a period that municipalities must remain in the system to make this work? Could the County take the position that the system is working and provide no opt out clause?	Southgate	See responses to 2.5 and 7.3 above a and permanency of a new model.
7.5 Roll-Out: How quickly will the roll out of service take place?	Southgate	A timeline has not yet been establishe
<b>7.6 Service Level Agreements:</b> Why are only two options (status quo and County-lead model) being considered? Could a third option be considered with service level agreements and service assistance provided between local municipalities (i.e., where one municipality can assist another)? If so, could this not be negotiated between all the local municipalities and include cost recovery/assistance and address potential legal and liabilities issues?	<ul><li>Southgate</li><li>Chatsworth</li></ul>	See response to 7.1 above. Service le could also be investigated, just as sor services staff.
7.7 Applications In Process: What is the transition plan for applications in process?	Hanover	This will need to be determined and d

ditional details could be included in the MOUs ther investigate how other centralized or s regard.

e level agreements between municipalities ome municipalities already share building

detailed as part of the initial MOU.

<b>7.8 Focus Group:</b> A Director's Focus Group could be created to provide further input for questions and clarifications throughout the exploration phase.	Hanover	Acknowledged – staff are happy to exp meeting in March.
8.0 Other Roles Se	erved by Municipal P	Planners
<b>8.1 Planning Adjacent Work:</b> Municipal planners serve many other roles beyond development application processing and policy review. This other work may be considered "planning adjacent work". What is the anticipated availability of the Planning staff within the proposed County model to support planning adjacent work in lower tiers? Will there be services that the County will establish as "not being offered"?	<ul><li>Owen Sound</li><li>Southgate</li><li>Hanover</li><li>Meaford</li></ul>	Acknowledged – see response above
<b>8.2 Special Projects:</b> On many special projects, municipalities use cross-department, multifunctional teams. Will planners be available under the proposed model to resource cross-departmental, multifunctional teams on special projects, studies, etc.?	Owen Sound	County staff see merit to participation i MOUs could spell out what capacity is
9.0 <b>Muni</b>	icipal Agreements	
<b>9.1 Municipal Plans:</b> How will municipal agreements such as plans of subdivision or site plan approval be addressed under the new model? Will staff be required locally to support this work and how will this be integrated with other divisions?	Owen Sound	This has not been determined yet, and (b) detailed as part of the future MOUs municipal staff support required for suc legal advice with support being provide
<b>9.2 Document Consistency:</b> Municipalities may rely on consultant support in developing zoning bylaws and official plan work. These documents may be very similar, and benefit from the experience of other local Grey County municipalities, but when working with consultants, the municipality does not necessarily benefit from this shared experience. It would be easier to access this shared value in a centralized model where the same policy planning team would be able to extend support to all lower-tier municipalities. This would also enhance consistency to residents.	Georgian Bluffs	Acknowledged – this is potentially one hybrid model.
<b>9.3 Document Updates:</b> A clear framework for document updates such as Zoning Bylaws and Official Plans is needed. Knowledge of all municipalities respective Official Plans and Zoning Bylaws will be challenging.	<ul><li>Hanover</li><li>Meaford</li></ul>	Acknowledged – this will be challengin standardization and peer-to-peer learn both Bruce and Huron Counties who had opportunities for efficiency and 'not rein plan and zoning by-law updates.
10.0 <b>Future</b> I	MOU Considerations	5
<b>10.1 MOU Content:</b> Developing service agreements or memorandums of understanding with each of the participating lower-tier municipalities would be critical in ensuring that services were accountable to local needs. Municipalities will want to see and have the opportunity to shape such agreements and would value the ability for these to be individually established to allow for individual needs of municipalities to be reflected. The MOUs need to clearly define responsibilities and roles, including the authority for decision making. They should also include consideration on municipal staff interaction/communication, financials, physical work spaces and conflict resolutions.	<ul> <li>Georgian Bluffs</li> <li>Hanover</li> <li>Chatsworth</li> </ul>	Acknowledged – see also the response MOU's/service agreements will be critic County and each participating member

nd will need to be (a) further investigated, and Us. Most likely there would still need to be such agreements including possibly clerks and ided by County planners.

ne of the biggest benefits of a centralized or

ging, but also an opportunity for some arning. Staff have discussed this matter with b have shared both challenges as well as reinventing the wheel' when looking at official

nse to 5.2 above. Staff agree that the ritical and will be worked out between the per municipality.

<b>10.2 Additional Services:</b> What if a municipality wanted to take on new services that would be outside of the service arrangements?	Southgate	This would need to be discussed betw of a potential MOU update.
11.0 <b>Commun</b> i	ications and Repo	orting
11.1 Planning Stats: Will the County be reporting planning stats (application volumes)?	Southgate	Yes in order to offer full transparency, met.
<b>11.2 Council Visits:</b> Will the Director or Deputy CAO be making regular visits to local municipal councils to check-in and give a 'state of planning'?	Southgate	See the response to 2.8 above. The function between municipal staff and a contract This MOU could include provisions for director or senior staff level, updates to well as protocols for conflict resolution
<b>11.3 Report Templates:</b> Will planners be providing reports in County or Municipal report/presentation formats?	Southgate	This could be spelled out as part of th mix i.e., depending on the council or c would be in the format of that council
<b>11.4 Public Communication:</b> What is the communications strategy to advise the public of these changes?	Southgate	Should the model progress forward, there. Currently the County has a page model, and seeking feedback. <a href="https://projects/centralized-planning-service-">https://projects/centralized-planning-service-</a>
12	2.0 Other	
<b>12.1 Lobbying Power:</b> There may be increased lobbying power (ROMA/OPPI/AMO/Provincial or Federal Government)	Southgate	Acknowledged
<b>12.2 Remaining Unknowns:</b> There are too many unknowns, and because of those questions, if the reform is implemented, the law of averages dictates that there will be a better change of unseen costs arising through all these 'grey' areas. These will only be found when the system is operating. Further, I don't want to see any lower-tier municipality lose autonomy in planning. Historically, the person or organization holding the purse strings has the last say, or at least more of an influence.	Southgate	Acknowledged – see the response to next steps and investigation areas.
<b>12.3 OLT Courts:</b> Will planners be made available in the event of appeals to Ontario Land Tribunal (OLT) or the courts, and at whose expense? A framework is needed.	<ul><li>Southgate</li><li>Hanover</li></ul>	Acknowledged – see the answer to 9. investigated and spelled out as part of future OLT matters, but also existing 0 pertain to planning staff and legal reso yet, staff anticipate being able to make provided staff capacity exists. 9.1 above. This will need to be further of the future MOUs, both as it pertains to g OLT matters. These considerations would esources. While nothing has been determined ake planning staff available for OLT matters, pertains to external legal counsel, that would lity of the approval authority, i.e., municipalities ing legal resources where their council or s appealed or failed to make a decision on a \*Note regarding Appendix 1: there are many references to a centralized service delivery model in Appendix 1, including in the County staff responses. These references are in response to the original centralized service delivery model concept. This concept has since evolved into a potential hybrid service delivery model concept. For the sake of responding to the original municipal comments, there are still references to the centralized model, but such responses shall now be read with the understanding that a hybrid model is now what's being considered.

# Joint Council By-law 2025-01

#### A By-law to confirm all actions and proceedings of the Joint All Councils Meeting

WHEREAS Section 5 of the *Municipal Act,* 2001, as amended, states that the powers of a Municipal Corporation shall be exercised by its Council;

AND WHEREAS Section 8 of the *Municipal Act*, 2001, as amended provides that a municipality has the authority to govern its affairs as it considers appropriate and enables the municipality to respond to municipal issues;

AND WHEREAS it is deemed expedient that the proceedings of the Special County of Grey Joint All Councils meeting dated March 21, 2025 be confirmed by by-law.

NOW THEREFORE BE IT RESOLVED THAT THE JOINT COUNCIL HEREBY ENACTS AS FOLLOWS:

- 1. The actions from the meeting held March 21, 2025 with respect to each motion and resolution passed, and any other actions taken by the Joint Council at this meeting are hereby adopted and confirmed as if such proceedings were expressly embodied in this By-law.
- 2. The Warden and proper officials of the Corporation of the County of Grey, Town of The Blue Mountains, City of Owen Sound, Township of Georgian Bluffs, Municipality of Meaford, Township of Chatsworth, Municipality of Grey Highlands, Town of Hanover, Municipality of West Grey and Township of Southgate are hereby authorized and directed to do all things necessary to give effect to the action of the Joint Council referred to in the preceding section thereof.

ENACTED AND PASSED this 21st day of March, 2025.

WARDEN: Andrea Matrosovs

CLERK: Tara Warder
